

## **Suniva Names AEE Solar Its Latest Distribution Partner**

*Georgia-based solar company enters agreement with top distributor*

**Norcross, Ga. – July 9, 2012–** [Suniva, Inc.](#), a U.S. manufacturer of high-efficiency crystalline silicon solar cells and modules, today formally announces its partnership with U.S. Solar Power Wholesale Distributor, [AEE Solar](#), one of the nation’s largest wholesale distributors of high-quality solar products and equipment. The partnership will broaden Suniva’s distribution channel and advance high-quality module offerings within the residential market.

“We are excited to work with AEE Solar, one of the nation’s top distributors,” said Patrick King, director, channel development at Suniva. “AEE’s dedication to quality and service is a great fit with our values; they are a great addition to, and complement our other strategic partners.”

“AEE Solar has always strived to bring the highest quality products to our dealers. This partnership with Suniva reflects that commitment and we are excited to offer their U.S. made high quality modules,” said Gregg Fisher, vice president and general manager for AEE Solar.

The new distributorship will provide mid-tier Engineering Procurement and Construction (EPC) contractors, local installers, and the residential market access to high-quality, high power, affordable modules from a US manufacturer.

Suniva will be exhibiting at Intersolar North America 2012, July 10-12<sup>th</sup> in booth # 9711 in the West Hall. AEE Solar will be exhibiting in booth # 8623.

### **About AEE Solar, Inc.**

AEE Solar Inc., a subsidiary of Mainstream Energy Corporation, is one of the nation’s largest wholesale distributors of solar products and equipment. With over 30 years of solar expertise, AEE offers their customers the products, training and support needed to succeed. AEE supplies resellers, contractors, integrators, and installers the field-tested, reliable products they need to design, install and maintain renewable energy systems.
