

Balance of systems solutions
made seamless.

SUNIVA INTRODUCES THE BOSS: *BALANCE OF SYSTEMS SOLUTIONS*

Suniva, an American manufacturer of high-efficiency monocrystalline silicon solar cells and modules, focuses on innovation, quality and low-cost manufacturing techniques to make solar sensible in the global market. As an extension of our high-quality PV products, Suniva is bringing together industry-leading balance of systems (BOS) partners to make your balance of systems solutions seamless.

MOUNTING

Optimize your entire PV system with Suniva's BOSS. System integrators can experience best-in-class mounting solutions with Schletter.

OUR PRODUCTS:

Ground Mount
Pitch Roof Mount
Flat Roof Mount

SCHLETTER

With a long history of manufacturing experience, Schletter offers innovative solar mounting systems for commercial, residential, and utility-scale solar projects. Each solar mounting system can be individually designed for a cost-effective photovoltaic mounting solution in any sized application. In addition to solar mounting systems for nearly any application, Schletter manufactures solar carports, module cleaning systems, ETL Listed Rapid²⁺ Grounding Middle Clamp, and more.

GROUND MOUNT OPTIONS:

- **FS System**
Pile driven posts; short install time; high level of pre-assembled parts. Now ETL Listed!
- **PvMax**
Concrete ballast blocks best for sites where soil is too soft or too rocky for stable penetrations; brownfields. Best for small and medium-sized PV plants
- **Park@Sol**
Single and double parking carports and shade canopy solutions

PITCH ROOF MOUNT OPTIONS:

- **Standard Flush Mount**
Most economical and versatile roof system
- **GridNorm Flush Mount**
Consisting of horizontal rails that connect to the roof structure with vertical cross rails to mount modules

FLAT ROOF MOUNT OPTIONS:

- **Windsafe System**
All purpose, non-penetrating (or penetrating) ballasted solution. Flexible design allowing for a choice of module tilts from 0 to 45 degrees; contains windshield on every rack
- **IsoTop**
Ideal for industrial buildings with long span membrane roof and special construction requirements
